

FIRE DRILLS IN PUBLIC SCHOOLS HERE EFFICIENT

Following School Test Yesterday, Members of Beloit Board Express Views of Our Situation.

That the fire drills in the Janesville public schools are of real practical value and that it will be the aim of the school board to keep them up and encourage the practice, was the view expressed at that body. Fire drills have been in force in the various schools of the city for some time past and are considered by the authorities as having reached a fair state of perfection.

The president of the board of education, Dr. S. B. Buckmaster, when asked about the matter, said: "I consider the idea of drilling the pupils of the several schools for fire emergencies as a very good thing and to keep the fact of their necessity before the teachers and others. Of course some of the efficacy of the drill is lost if the teachers and pupils are aware that the alarm is to be sounded before hand. But as far as I know they are always conducted in such a way that no one knows of them before they hear the bell. During the winter months we tried it, but complaints came from the parents that the children were exposed to the cold air and so they were not gone through with as much as was hoped."

A. M. Fisher, another member of the board, told of his experience in the Adams school recently. In a visit to that building he asked one of the teachers how the pupils behaved in the fire drills and if they were tried frequently and she replied by asking him if he would like to see one. Upon his saying that he would she touched an electric bell at the desk and the sharp commands and the pupils were marching in an orderly fashion from their rooms into the school yard, and the time taken for the whole operation was not much over a minute.

S. M. Smith, also a member of the board, said that he considered the fire drills as one of the things of real practical value in the education of the child, not only for the reason that it prepared them for emergencies, but that it was a factor in developing self-control. He said further that it was the idea of the board to keep this matter up and to see that the drills were gone through with as often as possible now that the weather was so that it could be done.

The degree of efficiency which may be reached in preserving order during fire emergencies was demonstrated at Beloit yesterday. By plans laid before hand members of the school board and others made trips to the different schools in autos and in each case a fire alarm was turned in and an exact record of the time recorded in every school building. The speed and self-control of the teachers and scholars in emptying the buildings was remarkable and showed the results of months of drills were carried off without any forwarding and were an actual test of the efficiency of the system.

DISTRICT CONTEST IN BELOIT TONIGHT

Miss Margaret Doty and Elmer Cuckow Will Represent Local School in Contest This Evening.

Janesville, Beloit and Evansville high schools will be represented in the annual league oratorical and declamatory contest to be held in the Lino City this evening. The Methodist church auditorium will be the meeting place and large delegations from this city and Evansville will be in attendance.

In the declamatory contest Miss Margaret Doty will represent the Janesville school and Elmer Cuckow will be the local contestant in the oratorical event with the topic, "The Gorman Monarchist." Both are excellent speakers and hopes among the students here are high that they will duplicate the glorious victory of last year. Many of the Janesville students will attend the contest tonight and a special car may be chartered.

The judges named are Prof. George Shultz of Whitewater, Normal, Sup. E. W. Walte of Jefferson and Joseph Norris of Rockford.

DIED YESTERDAY AT THE MERCY HOSPITAL

Remains of William Grieb, Who Died at Janesville Hospital Were Taken to Edgerton Last Evening.

Edgerton, April 28.—The remains of William Grieb who died Thursday morning at the Mercy Hospital in Janesville, were brought here in the evening of the same day and were taken to the residence of his sister, Mrs. Albert Dallman. The deceased was a native of Germany, coming to America twenty-nine years ago, most of which time he spent in Edgerton. He was in his sixtieth year. He had never married and had lived with a brother and sister for many years. For several years he had been afflicted with a kidney trouble which, failing to yield to treatment, an operation was advised which he underwent but it proved fatal. Four brothers, August, Ernest, Albert and Hermann and three sisters, Mrs. Dammann, Mrs. Albert Dallman and Miss Bertha Grieb, mourn his loss. The funeral will take place Saturday afternoon at 2 o'clock from the German Lutheran church, conducted by Rev. J. C. Spillman.

Personal Mention. H. R. Houder went to Rockford yesterday afternoon on business.

RACINE ST. BRIDGE BONDS DISPOSED OF

Sale of Issue With Premiums and Accrued Interest Netted City of Janesville \$17,881.36.

Bonds to raise the money for the construction of the bridge over Rock river at Racine street have all been sold by City Treasurer James A. Paterson and the money is now at the disposal of the city for the payment of the costs of construction, which will probably be commenced soon after the completion of the bridge. The contract, which will probably be done at the regular meeting on Monday night, as the contractors are anxious to begin work.

The amount of the issue was for \$17,000, but \$17,881.36 has been turned into the city treasury, the added amount being secured through the payment of one half per cent premium and accrued interest from the time of the sale of the bonds were closed, on April 20. Of this latter amount \$291.50 was received from the premiums paid and \$229.50 from the accrued interest. Actual interest paid on each bond is four and a half per cent, but the coupon call for five per cent interest. The difference is figured in the half per cent premium which the purchasers are required to pay.

Seventeen different persons subscribed for the issue and received the bonds, an average of \$1,000 each. Not more than three bonds for \$1,500 worth, were allowed each subscriber and the issue was sold only to local people although there were a number of requests for bonds from outsiders.

RAILWAYS LOSE IN PORTLAND CEMENT CASE

Interstate Commerce Commission Refuses to Permit Higher Rates in West.

Washington, April 28.—In a decision handed down in the Portland cement case the Interstate commerce commission refuses to allow the principal western railroads to increase their rates for the transportation of cement for the reason that the carriers do not, as they claimed, need the additional revenue.

General advances of half a cent to five cents a hundred pounds in rates on cement were proposed by the carriers in trans-Missouri territory, to become effective Sept. 1, 1910, and affected territory which produces approximately two-thirds of the Portland cement made in the United States. Cement is a commodity of comparatively low grade in transportation, but in commercial bulk is exceeded only by coal, iron ore and grain. The advances proposed were attacked by producers and shippers and pending an investigation the commission suspended them, first until Nov. 1, 1910, and subsequently until July 1, 1911.

Approval of the increases is given the proposed rates from Portland, Colo., to all destinations; from Kansas City territory and points in Kansas and Oklahoma to points in Texas, and from Bonner Springs and Yecoma, Kan., to points in Colorado, Iowa, Kansas, Missouri, Nebraska, Wyoming and New Mexico.

"With these exceptions," the commission says, "the propriety of the new rates has not been shown."

The World's Weddings. Somebody who has been gathering statistics finds that there are about three thousand weddings in the world every 24 hours. In most cases the brides probably hope to board at fashionable hotels during the first year or two at least.

SHAKE-UP IN DIPLOMATIC SERVICE.

Washington, D. C.—There is a shake-up in the diplomatic service which brings changes in the plans of several high officers in the corps. It began with the resignation of Herbert H. D. Pierce as minister to Norway, to which post he was appointed in 1906. Coincidentally with this came the orders to Henry S. Pontell, who was appointed to be minister to Portugal, and had only gone as far as London, to await orders at that city.

L. S. Swenson was then transferred from Switzerland to the place vacated by Mr. Pierce in Norway and Mr. Pontell was sent to Portugal, to which made a vacancy in the State Department. Secretary of State Knox sent E. B. Morgan, now minister to Paraguay and Uruguay. A vacancy is left in the post to the two latter countries.

Mr. Pierce was at one time third assistant secretary of state in Washington and has been diplomatic service as secretary at St. Petersburg. It is expected he will desire to retire from public life.

Mr. Swenson is a native of New Sweden, Minn., and previous to his service in Switzerland was minister to Denmark. He entered the diplomatic service in 1897.

There is a long diplomatic career behind the appointment of Mr. Morgan.

Save \$\$\$\$ On Wire Fence!

We can save you money if you will buy either Page Fence or Lion Fence NOW.

Page fence is the Pioneer of Woven Wire Fences, having been on the market for a quarter of a century. It outlasts any other woven wire fence made, because of the tremendous strength of its High Carbon Basic Open Hearth Steel Wire. If you have Page Fence on your farm now, you know why it's the most economical fence. You know that it will support itself over a longer span than any other fence, and thus save many posts and much labor.

Lion Fence, King of Lock-Type Fences, is the strongest of its kind made. It can't sag. It is unaffected by temperature changes. It's lock holds it secure against hardest usage. It's the best "staple" fence on earth.

We have both these fences in all styles—Standard Stock Fence, Hog Fence, Sheep Fence, Poultry Fence, etc.

If you need fence now or expect to buy this season, call at once.

Thrift is so essential to modern day happiness

Renting a piano is no longer necessary Through our club you can buy one as easily

Why should you—why should any one in fact, rent a piano?

A rental piano is, as a rule, a second hand piano—a cheap instrument usually—anything in truth, that will stay half-way in tune.

For the use of such an instrument you will have to pay 4, 5 or 6 dollars a month, as the case may be, according to the condition of the instrument. After you have rented the piano for months and months, and sometimes for years, the piano goes back to the piano man.

What for?

To be rented over again—to someone else. The piano man now has not only the rental you paid him, but the piano as well.

Right here is a place for many a person hereabouts to practice thrift:

Stop renting a piano. Start to owning one

Our big inaugural club offers the opportunity—and such an opportunity as Janesville has never had before.

At the very outset you start in a thrifty way. You save 97 dollars and 50 cents in the initial cost of the piano, as you get a piano for 277 dollars and 50 cents that usually sells for 375 dollars.

Next, the terms.

You do not have to pay more to own one of these splendid new pianos than you have to pay to rent a second hand one—5 dollars cash, then 1 dollar and 25 cents a week.

And, by joining the club—while you are paying, you are owning.

Every week you come in to pay—you are laying up 1 dollar and 25 cents for yourself—towards your own permanent ownership of a beautiful, durable and praiseworthy piano.

Yes—we know that the terms for renting a piano have their advantages. We know that they have in many an instance been a necessity.

But that was before we opened this big inaugural club.

Now we say—and say it boldly—that no one can afford to rent a piano, when, by becoming a member of this 200 club, buying a piano is attended by so many advantages and so much ease.

Phone in your application. Do it tomorrow. Then the first day you are down town you may come in and make your selection.

And—if a 30 days trial discloses that you have made a wrong move—we will give you your money back.

What more can we do than this?

Here are some figures showing the economies and thrifty features of the club.

1. Individual club members save 97 dollars and 50 cents each on the purchase price.
2. The club collectively (200 members) save \$19,500.
3. There is no interest to be added—the club member being entitled to 218 weeks' time in which to pay the club price—277 dollars and 50 cents—without the further payment of interest.
4. For every week the member shortens his terms below 218 weeks, he gets a cash rebate or "dividend" of 15 cents.
5. The club member gets big economy in time in which to pay—as in the club he gets 218 weeks as against 152 weeks if he bought on regular terms.
6. He gets two free tunings—worth 5 dollars.
7. He gets life insurance. If he dies—future payments are cancelled—and the piano is turned over to the family of the deceased—free of any further payments.

Many Years in the Navy.
Washington, D. C., April 28.—With forty-seven years of honorable service to his credit, Charles H. McCreder, chief gunner of the United States Navy, was placed on the retired list today on account of his age. Mr. McCreder is a native of this city and entered the navy as an apprentice when he was fifteen years old. During the yellow fever epidemic of 1871 he was in charge of the Pensacola navy yard, owing to the fact that every officer there was either ill with the fever or died from its effects.

AUTOISTS TO MEET ON WEDNESDAY NEXT

Annual Meeting and Smoker is Called for at Gazette Office—Important Matters to Be Discussed.

Earl T. Brown, secretary of the Janesville Automobile club, has announced that the annual meeting of the club will be held at the Gazette office on next Wednesday evening, May 3, at half past seven o'clock. Members of the club and all other motorists are requested to be present at the meeting at which officers for the coming year will be elected and other matters of general interest to automobile owners will be discussed.

Among other things which will be considered at this time will be plans regarding the entertainment of the Chicago autoists who will be in Janesville June 15th. The matter of good roads, both in the city and county, will receive attention, as will also speeding and any other matter which will interest the members of the club at this time. All discussion will be informal and a large attendance is desired.

PLAINTIFF RESTS IN DAMAGE CASE

Defense Began Testimony This Afternoon Before Judge Grimm in \$25,000 Suit

Counsel for the plaintiff rested their case at 2:30 this afternoon in the action before Judge Grimm in which James H. Monahan is suing the Fairbanks-Morse company of Beloit for \$25,000 damages for injuries received in their plant. Following this the defense called their witnesses and asked for a special verdict in the event of the case going to the jury.

The afternoon was taken up with the plaintiff's witnesses. Dr. C. E. Smith of Beloit was called to the stand to testify as to the condition of Monahan after the accident. It will be remembered that the man was employed as helper and janitor at the Fairbanks-Morse plant and on the morning of November 15, 1909, was caught in one of the shafts and received injuries which it is alleged will leave him a cripple for life. He alleges that he was caught in a set-screw which projected out from one of the gears and therefore claims damages from the company.

The defense are endeavoring to show that it was a physical impossibility for him to have attributed his accident to a projecting set-screw and with this end in view introduced into court as an exhibit, a model of the machinery in which the man was caught. In all probability the case will last until tomorrow night.

BRIEF LOCAL NEWS.

Salvation Army special. Capt. Robert Stevens, the Englishman, will give a special lecture on "Tuberculosis and Salvation and the Results." This lecture will be given in the Salvation Army Citadel, 101 N. Main street Sunday evening, April 30th at 8:00 o'clock. Every man and woman in the city should be interested and come. The subject of "Tuberculosis" will be discussed from every Salvation Army center in the country. Statistics show 200,000 deaths yearly from this dread disease. It is therefore necessary for everyone to be interested to find ways and means to stamp it out. Everyone invited. Good music.

Is Being Easily. Charles McKewen, who was injured yesterday morning when a street car collided with the wagon which he was driving, is reported as doing nicely at the present time. Upon examination, Dr. Mann found that there were several ribs broken but that there was no puncture of the lung as was feared at first.

PLANS FOR LEAGUE SEASON DISCUSSED

Officers and Directors of the Commercial Baseball League Met at Y. M. C. A. Last Night.

Representatives of six of the seven members of the Commercial Baseball League of this city met last evening at the Y. M. C. A. building to discuss plans for the opening of the season of 1911. To a committee of two was given the matter of drawing up a set of rules regarding the government of the league this year and it is likely the representatives of the various teams will have charge of the detail work of the league. It was also decided to consider the proposition of cups and prizes for the winners in the league, to provide a cup for the winning team each year and prizes for the three which win second and third place. At present the award for first place, a trophy presented by the Y. M. C. A., is held by the H. L. McNamara team.

The season of the league will probably open the second or third Saturday in May, depending on the date on which the various factories grant half holidays on Saturdays to their employees. Five teams, members last year, will enter the race this year—the Y. M. C. A., Caloric company, Parker Pen, Lewis Knitting company, and Rock River Woolen Mills. The Rock River Cotton company and the Janesville Machine company are expected to compete with the other teams this year and possibly more members will join the league.

In order to secure as many teams as possible, Secretary J. C. Kline was authorized to invite a number of other local companies to enter the league. Those mentioned were: Wisconsin Carriage company, Rock County Sugar company, Hough Shoe company, Hanson Furniture, Thoroughgood Box, and Garret Printing companies, Janesville Carriage Works, and the Southern Wisconsin Business college, but other plants or associations in the city may apply for membership.

Another meeting of the league will be held in the near future, at the call of the secretary, which will probably be for Wednesday of next week. The report of the committee on rules will be made at that time.

The present officers of the league, elected at the time it was organized last summer, will probably hold over this year, as they did not serve throughout the entire season. They are: T. O. Howe, president; John Goller, vice president; and J. C. Kline, secretary and treasurer. The board of directors is composed of the officers and A. G. Jones, N. I. Milliken, W. D. Hodson, and F. E. Lewis, representing the other teams in the league.

Many Stars in Relay Carnival. Philadelphia, Pa., April 28.—The University of Pennsylvania's seventeenth annual intercollegiate and interscholastic carnival of relay races and field sports on Franklin field tomorrow is expected to be one of the greatest gatherings of classy athletes that has ever been brought together in America. Every section of the country is represented in the list of entries. A number of the big university teams from the West put in an appearance today, but the bulk of the contestants will not reach the city until tomorrow morning.

The meet this year will include nearly all the usual track and field events, one-mile relay races for different classes of colleges and the one, two and four-mile national relay championships. It will be largely the East against the West, and, incidentally, the graduate stars against the undergraduates. Nearly every intercollegiate champion of both the East and the West is entered.

Edwards, the Western champion hurdler, will meet Chisholm of Yale, the Eastern champion. Waason will be in the broad jump against Roberts of Amherst, the Eastern champion. The Western champion pole vaulter, Murphy of Illinois, will compete with Gardner of Harvard, and Holman of Dartmouth. In the shot Philadelphia, the Western champion, will be pitted against Homer, the Eastern champion.

As in previous years the relay races are attracting much attention. The contestants in the relay championships will include Harvard, Cornell, Princeton, Chicago, Michigan, Notre Dame and Pennsylvania, in the one-mile; Princeton, Cornell, Harvard, Pennsylvania and Virginia in the two-mile; and Princeton, Cornell, Pennsylvania, Michigan and Notre Dame in the four-mile.

BASEBALL NOTES.

Of the first six games played by the Cardinals three were the games. "Bill" Dwyer has succeeded the vet-

eran George Davis as manager of the Boston Red Sox.

The Athletics have refused to waive on pitchers Arellanes and Hunt of the Boston Red Sox.

Dan McGinn, the old New York-Milwaukee player, who committed suicide left an estate of \$35,000.

Jimmy Sheppard, Low Ritchie and John Pfeister have signed with the Chicago Cubs for the seasons 1911-12-13.

Manager Bob English has signed a likely looking bunch of players for his Lincoln Western League club.

The Cubs did not play a tie game in 1910, and they started this season with two tie games out of the first three played.

The daffodil craze struck Chicago. Now watch—if Johnny Evers refuses to eat meat on Friday does Tom Needham?

Flights Scheduled for Tonight. "Cyclone Johnny" Thompson vs Hugo Kelly, 1 round, at Racine. Sammy Smith vs Johnny McCarthy, 20 rounds, at San Francisco.

Clabby-Brown.

Milwaukee, April 28.—Jimmy Clabby is practically matched to clash in the ring with George (Knockout) Brown. The pair are to meet at an early date. Memphis has made a strong bid for the bout. The articles call for ten or more rounds at one hundred and fifty four pounds.

Jack Johnson.

Chicago, April 28.—Indications here today are that Jack Johnson's first fight since his victory over Jeffries at Reno will be with "Philadelphia" Jack O'Brien at Philadelphia during the first week in June. Johnson announced today he had promised to give "Phil" the first call on his services. "Phil" a prize big enough were raised. O'Brien is said to have come through with an offer of \$10,000 for a six-round bout.

WILL COMPETE FOR BRITISH AMATEUR GOLF CHAMPIONSHIP.

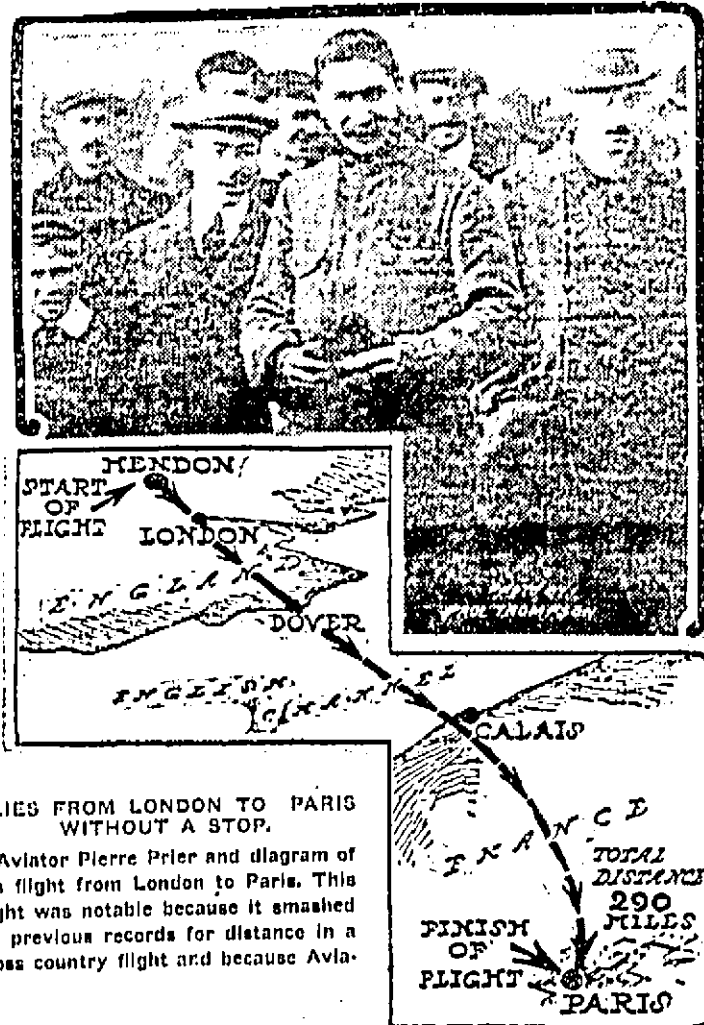

Chicago, Ill.—Charles E. Evans, Jr., more familiarly known as "Chick," has decided definitely that he will play in the British amateur golf championship at Prestwick, this spring, unless through some technicality his entry is rejected. His entry has been sent and

he will sail from New York on April 29, exactly a month before the beginning of the championship at Prestwick. That will give him a fair amount of time to become accustomed and to become accustomed to the course on which the championship will be played.

It hardly seems likely that there will be any technicality raised against the brilliant western golfer, even though the United States Golf association did take a certain amount of liberty in its interpretation of the St. Andrews rule regarding putters. British golfers have taken part in American championships, open and amateur, with never a word said about barring them, and the same has been true of Americans in the British title play in past years. It is even likely that Evans will be given a warm welcome, if only to disprove what Walter J. Travis has had to say, at different times, about their sportsmanship. For that matter, however, Evans is the kind of golfer who makes friends wherever he goes, with his cheery smile, his modest demeanor and his grand golfing ability.

Peculiar City of Tibet.

Just outside Tachienlu is the stone bridge which is called "the gate to Tibet." Tachienlu is a narrow little city which had to conform its shape to the contour of the mountains which shut it in. There is hardly a foot of level ground within the walls. It is the great emporium of trade between China and Tibet. There the Chinese exchange tea for musk and gold dust. Many red freckled lamas are to be seen about the city, most of whom live in large lamaseries outside the walls. On the flat roofs of the houses flutter innumerable prayer flags, giving to the winds the universal Tibetan hymn of praise.

Effect of Mind on Matter.
Heavy thoughts bring on physical maladies; when the soul is oppressed so is the body. When cares, heavy cogitations, sorrows and passions superabound they weaken the body, which, without the soul is dead, or like a horse without a driver. But when the heart is at rest and quiet, then it takes care of the body and gives it what pertains thereto. Therefore we ought to abandon and resist anxious thoughts by all possible means.—Luther's Table Talk.

A Young Cynic.
Tom—They say that every woman is beautiful in someone's eyes. Do you believe it? Jack—Certainly—if you include her own.

Even Cannon Droop.
Among the problems with which army and navy engineers have to deal nowadays is that of the drooping of the muzzles of excessively long guns under the stress of their own weight. Experiments have shown that wire-wound guns of 12-inch caliber and 50-foot length droop at the muzzle about 4½ inches of arc, while built-up solid guns of the same size droop about 2½ inches. Differences of temperature in the body of the gun also cause bendings, which may either increase the droop at the muzzle or counteract it, according as it is the upper or under part of the gun that has the higher temperature. In consequence, projectiles on leaving a gun have a wobbly motion, continuing up to 600 yards and probably more.

America "Do Move."
Years ago there was a notable and eccentric individual called the Great American Traveler. But recent statistics would seem to show that pretty nearly everybody in this country is becoming a great American traveler. Ten years ago the total number of passengers carried in the United States one mile was about 15,330,000,000. Now the number is put at 29,500,000,000, an increase of more than 100 per cent. Of course this exhibit includes those who go only short distances. But even at that the showing is remarkable. The average American keeps "on the move" to an extent not known among his contemporaries elsewhere.

Paupers at Auction.
The "culture" of the Finlanders is not incompatible, it would seem, with an institution that savors strongly of the old slave markets of ancient Rome and the orient of more recent days. According to the account of a local newspaper, the Finnish poor law system, puts up able-bodied paupers at auction, displaying them in the market place, where they are examined by employers of labor desirous of finding cheap workmen. The bidding works downward, the authorities handing over to the lowest bidder the chosen pauper, for the person acquiring the right to his labor receives an allowance from the authorities for his upkeep, the amount being that of the "lowest tender."

Keeping Up Appearances.
"A woman finds a man out after she is married to him," said Mrs. Jangle, bitterly. "Yes," replied her husband, cheerily. "But that doesn't give him a chance to lay off the mask. He's got to go on for years trying to keep the children convinced that he is an intelligent and morally responsible person."

Good in Rain Water.
Piny said that thunder is rarely heard in winter and that the great fertility of the soil is due to the frequency of thunder rain in spring. Science has discovered the cause of the nourishment in rain water to be the presence of great quantities of nitrogen and ammonia in the thunder rain and in hail.

Facts About Java.
Java is an island in the Malay archipelago, the principal seat of the Dutch power in the east, and, after Sumatra and Borneo, the largest of the Sunda group. It is 630 miles long by 35 to 120 miles broad, and has a population of about thirty million. The chief articles of export include sugar, coffee, tea, rice and tobacco.

Are You a Janesville Booster?

Of course you are, and we want to ask of you, to Boost for the "Bargain Bazaar," 109 West Milwaukee Street.

This store, formerly known as "The Golden Rule," is under new management and we have decided to change the name also and will from now on do business under the name of "THE BARGAIN BAZAAR," and we are going to give you Bargains, too, not only in everything that you purchase, but also in courtesy and prompt attention. We will gladly rectify any mistakes that we might make. All we ask is a fair trial.

Big Dividends of Value and Satisfaction in Clothes Now

YOU were never before invited to share in a bigger dividend of value and satisfaction in clothes than now; never before have such clothes as these, from the master tailors such as Hirsh-Wickwire, Michaels-Stern, Becker-Mayer and others, been sold at such prices.

Note this: Here's a positive, pre-emptory clearance of Spring and Summer weight suits, without reserve. It's a good time to buy clothes; the first choice is always best at such a time.

You can easily understand the reason for this clearance: A lot of goods just came in last week which had been delayed in transit. They should have been here for the Easter trade. We didn't sell them at Easter because we didn't have them. Now they're here you get the dividend in Value and Satisfaction.

MISS LILLIAN TUCKER IN "MADAME SHERRY."

At the box office of Myers Theatre agents have been placed on sale for the engagement of "Madame Sherry," Woods' Prazen and Loder's Sherry, a great musical comedy which comes here almost direct from New York for an engagement.

Every indication points to a record breaking demand for seats. Mail orders have been piling up since the first announcement that we were to have "Madame Sherry" here, and almost every visitor to the box office has made some inquiry regarding the engagement. It is really remarkable that local playgoers should have such an early opportunity to witness this delightful production, when it is usually one or two years before a success of such magnitude finds its way here from New York. In the splendid cast to appear in "Madame Sherry" are Ned McCay, Ben Grinnell, Ada Mendez, Lillian Tucker, Alta Virginia Houston, H. Stevens, Estelle Theband, and a dozen others, in addition to the famous Sherry, chorus which thoroughly captivated Broadway.

EARLY PIONEER IS DEAD IN DAKOTA

Ezra Doolittle, a Resident of Evansville and Vicinity for Sixty Years, Died Wednesday—Funeral at Brooklyn.

(Special to this Gazette.)
Evansville, April 27.—Ezra Doolittle passed away at the home of his daughter, Mrs. Frank Hunt, near Chelsea, South Dakota, early Wednesday morning, April 26, aged ninety-three years.

Ezra Doolittle was born in Washington county, New York, November 23, 1817. In 1821 his parents moved to Mercer county, Pennsylvania, where he grew to manhood, and united in marriage, Dec. 17, 1840, with Jane Potter. His wife died Dec. 30, 1843, leaving one daughter, Margaret Jane, who is now Mrs. D. H. Glidden of Evansville.

In June, 1846, he came to Wisconsin and settled on a claim on section 10 in the town of Brooklyn. On March 16, 1854, he was married to Caroline M. Mack. In November, 1859, he moved to his newly purchased farm located on section 9, where he resided for many years. His wife died April 6, 1862, leaving one daughter, Ida, now Mrs. Hunt at whose home he died.

January 6 1868 he was again married to Sarah A. Jones, who died Feb. 21, 1889. Since the death of his last wife he has made his home with his daughter, Mrs. Glidden. When the family of Mr. Glidden removed to Evansville from Brooklyn, "Grandpa Doolittle," as he was familiarly called, came to reside with them.

He was kind-hearted and honest in his dealings with fellow men, and thus won a wide circle of friends, and was highly respected by all who knew him. During his residence in our city he made many warm friends among the younger people as well as the older ones, for he was beloved by all.

On July 1, 1905, he left this city for South Dakota for a visit with his daughter. His health began to fail and he was unable to return to Evansville, and for the past four years he has been gradually failing, although the end came suddenly.

He leaves two daughters and seven grandchildren: Mrs. D. H. Glidden and her children; Mrs. E. H. Libby and Ezra Glidden of this city; Burton Glidden of Redwood; Mrs. Frank Hunt and her four sons, Ellis, Ray, Maurice and Glenn.

The remains will be brought to Brooklyn where short services will be held and interment will be in the Stone school house cemetery west of Brooklyn by the side of his wives.

Local News.
Prof. Ray Broughton returned yesterday from a business trip to Kirksville, Mo.

One of the biggest crowds ever seen in Evansville was here yesterday. The Grange store celebrated their thirty-seventh anniversary with a big sale. Yesterday was also a busy day at Barnum's meat market where they sold over a thousand pounds of lard during the day.

Prof. B. H. Gaddis left for Greenville, Ill., today, and will remain over Sunday.

Mrs. Jay Adams of Rockford has been here on a brief business trip. Mr. and Mrs. C. D. Barnard were Janesville visitors Thursday afternoon.

George Dowdy of Madison is transacting business here today. Homer Potter went to Orfordville this afternoon to spend a few days with his grandson, Earl Potter.

Mrs. Lulu Dixon of Janesville was a guest of local relatives yesterday. F. E. Jones was a business visitor in Chicago the first of the week.

Mrs. Mamie Danke and children of Stoughton are visiting her parents, Mr. and Mrs. H. D. Hendricks.

Mrs. Annie Green will entertain at a "merry-go-round" this evening.

HIBERNIANS WILL INITIATE CLASS

Milwaukee Degree Team Will Do Here Sunday To Take Charge of the Ceremonies.

Seventy-five members of the Ancient Order of Hibernians from Milwaukee, including the degree team from the Cream City, will arrive in this city Sunday morning at 11:30 o'clock on a special train to participate with the local division in the celebration of the twenty-seventh anniversary of the organization of the local order. Word to this effect was received from J. P. Callan of Milwaukee, state president by John P. McInerney of this city, the state secretary. A large class to be initiated here on Sunday and the Milwaukee degree team will have charge of the work. The ceremonies will be held in Spanish War Veterans hall on Sunday afternoon. A committee from the local division will meet the visitors at the train.

There will be from seventy-five to a hundred visitors from Milwaukee, who will be entertained at the Myers Hotel for dinner by the local order. Plans are also being made to show the visiting delegation about the city.

DULLNESS NOTED IN EDGERTON MARKET

Work at Edgerton Warehouses is Fast Drawing To A Close.—Important Deals in Old Goods.

The Edgerton tobacco market provides very little business worthy of mention, according to the Edgerton Tobacco Reporter of April 28. With the buying season ended and the warehouses work of handling the crop fast drawing to a close, there is not much left to do. Each week goes a few more of the sorting houses closed down and a few more days will finish the handling of the 1910 crop. Cutton & Well have yet to size and pack their Ohio purchases and when help is released from the warehouses yet working, stemming operations will be started by T. B. Earle and continue during the greater part of the summer, employing quite a large force.

Big Sale of '06.
The most important transaction in old leaf for some months has been consummated during the week, being the sale of close to 1,000 cases of 1906, the packing of Conway Bros. to C. H. Spitzer & Son of New York. It is rumored that the goods ultimately go to one of the largest manufacturing concerns and removes from the market one of the two large packings of that year's growth which has caused so much loss and worry to holders.

Growers have their seed beds for another crop pretty generally sown and weather conditions have been suitable for this work.

The shipments out of storage reach 400 cases from this market to all points for the week past. Since last report five car loads have been received.

To Grow Primed Crop.
The McIntosh Bros., tobacco dealers of Edgerton, are preparing to make the experiment of growing a primed tobacco crop in Wisconsin this season.

An acre of choice land in high state of cultivation near the feeding yards has been secured for that purpose and seed obtained from the Connecticut valley for the planting. When the seed obtained from the Connecticut valley is planted in the field and cured by the method practiced by the raisers of shadogrown in the Connecticut valley. If the experiment proves a success it may lead to a more extensive production in this state.

Davarian Beer Consumption.
Davarians drink most of the beer they make. Of a product of nearly half a billion gallons, last year, only 75,000,000 gallons were exported. The home consumption is 248 quarts a year for every man, woman and child in the kingdom.

STATE FORGETS CHILD

HUMAN "CROP" OF THE COUNTRY OF INESTIMABLE VALUE.

More Than Two Million Babies Are Born Yearly and They Should Be Protected by Government Bureau.

There are born every year in this country more than two million children—boys and girls who will constitute the future citizenship of the nation. The value of this "crop" as compared with the cereal and meat products of the country cannot be estimated; but in view of its effect upon the future destiny of the nation, it is certainly entitled to as much consideration, to say the least, as the wheat, corn or cattle crop.

To illustrate this phase of the question, suppose that the census report for 1910 shows that the wheat crop of Iowa has decreased 25 per cent. In production as compared with 1900, or that the production of cattle in Nebraska has fallen off 30 per cent. In the same time. It would be the duty of the department of agriculture to take cognizance of this fact, and experts of the department would at once be sent out to investigate and report upon the causes of this decrease, and if the causes could be ascertained, a remedy suggested, bulletins would be published and freely circulated among the farmers and cattle raisers of the respective states which would be of great value as a guide in raising the next year's crop. Now suppose that the census report shows that in Iowa the rate of infant mortality had increased 25 per cent. in 1910 as compared with 1900, or that the proportional increase in injuries to children in factories or mines of a certain state was 30 per cent; there is no bureau under the federal government, and in fact under but few state governments, whose duty it would be to investigate and report upon the causes of these increases.

Out of these two million children born every year, three hundred thousand under one year of age do annually, and one-half of these deaths are preventable by the knowledge and application of the proper remedies or preventive measures. In other words, it may be said that one million American born children are lost to the country every ten years through a lack of proper information. Of course, it cannot be claimed that all these children could be saved by the dissemination of information by the federal government, but a general diffusion of sanitary knowledge and instructions as to the proper care of children would undoubtedly save the lives of many children in years to come.—Forum.

THE WOMAN IN BUSINESS.

What many girls, and women, too, fail to realize is that work—any work, be it for the commercial and impersonal world that pays for it with a small weekly check, or for the dear personal world which pays chiefly in love—that any work is a privilege. No matter how monotonous it may seem, it carries with it a responsibility which should win a response not only of respect and interest, but of affection, and which should result in making for the girl a larger and more admirable personality. Of course, a girl may be overdriven, in which case she can hardly be expected to love her work. What she needs is to be taken away from it and nursed back to steadiness of nerves. But assuming that a girl has a normal working day, lasting seven or eight hours (unfortunately, it is sometimes nine), she has no excuse for not feeling an interest in it, for not understanding that she owes it an attention that has nothing to do with the wage she draws for it.—Woman's World.

FOOTVILLE.

Footville, April 27.—Mrs. J. H. Hullock is visiting old friends in Footville.

Clifton Fish returned home Wednesday after spending two weeks at Clinton, Ill.

Mrs. Gertrude Frazier stopped here a few days this week to visit relatives. She was on her way to Danvers.

At the last meeting of the trustees of St. Augustine's congregation, Footville, a vote of thanks to Mrs. John Kennedy of Janesville was proposed and passed unanimously. Mrs. Kennedy recently donated to the congregation a very fine organ.

The many friends of Clifford Owen will be glad to hear that he is on the rail.

Merton Fish left Thursday for Reddick, he made the trip in his new auto.

H. E. Nott has put a new Putnam organ on trial in the Christian church.

Mrs. Ruby Bennett Pratt was a caller at W. J. Owen's Wednesday.

The M. W. A. will give a dance at the hall May 2.

FILLING THE BILL.

Being in want of a steady, reliable servant a lawyer advertised as follows: "Wanted—A girl with simple tastes; must not be extravagant; no flashy clothes; not flighty; must not gab about or exchange remarks with any casual pedestrian." Some friend sent him a baby.

AMERICAN LIQUORS LIKED.

American brewed beverages and liquors are practically without rivals in the market of Monterey, Mexico, according to Consul General Hannan of that city. Practically all of the whisky sold in the Mexican city is provided by American distillers and is dispensed in grocery stores and cafes, as well as the barrooms and hotels. American beer has the run of popular favor among the imported products.

"HOOSIER" POET NEAR DEATH.

Most recent picture of James Whitcomb Riley, taken just before his illness called him to the sick bed and dark room. He is a very sick man, confined to his home in Indianapolis, Ind. It is reported he is losing the use of his hands and cannot walk without support. Practically no one except the immediate family has been permitted to see Mr. Riley for a fortnight. A pathetic incident in connection with the poet's illness is that, while unable to write, he is working with unusual energy at dictating his poems in an effort to complete his last edition of works that they may be published this spring. The edition will include several new poems.

WHISTLES.

Whistling is a fixed habit in man, but it can be overcome. The man on the tugboat is only an overgrown willow-whistle boy. The boy is spanked into a knowledge that there is a season and a time when whistling may be indulged without rousing the ire and edging the nerves of the neighborhood. There is a certain legal spanking which may fit the seat of the present noisemakers.—Chicago Post.

The Evening Chit-Chat

By RUTH CAMERON.

IN a little town in Massachusetts a suit has recently been instituted to compel the three sons of an old man who is now in the poorhouse to pay for his support, on the grounds that they are perfectly well able to do so.

This is the old man's story: "A few years ago I owned my own farm, and it was a good one. After my wife died I made a trade whereby I should be kept for the rest of my life in return for my property."

"AS SOON AS THE PAPERS WERE SIGNED THINGS BEGAN TO BE HARD FOR ME. Frequently I was nearly starved and had to apply to the neighbors for food. I grew thin and was poor both in food and clothing."

Conditions finally became so unbearable that those to whom he applied for food helped him to get admission to the poorhouse.

Incidentally he now declares with the pathetic insistence of evident terror that even if his sons are compelled to support him, he shall insist upon playing at the poorfarm and letting them do it through that institution.

Evidently King Lear's daughters have plenty of brothers and sisters "under the skin" in modern civilization.

And evidently the terrible lesson King Lear learned of the unwisdom of dividing his portion before his death has yet to be learned by many modern parents.

Perhaps you think the case - I have just quoted is too extraordinary to be typical, and that I would have to go far to find any similar cases.

Then listen to a letter which, by the way, came to me the very day I clipped the other happening from the paper.

"I want to tell you, Miss Cameron, of a delicate little woman who came to our door a few days ago and asked if we could tell her where she could live and do washings. She said she was sixty-five years old, and had left her a house and two thousand dollars in money. She had four children, two sons and two daughters. They had kept after her four thousand dollars in cash. This they had prevailed upon her to divide equally among them, giving each one a thousand dollars, they promising to give her a good home as long as she lived."

"Poor little woman! THEY TOOK HER MONEY AND SENT HER FROM ONE TO ANOTHER. ALL WERE MARRIED AND IN HOMES OF THEIR OWN. EACH ONE HAD SOME WONDERFUL REASON FOR NOT TAKING HER, AND SENT HER TO ONE OF THE OTHERS. SHE HAD NO PLACE TO STAY, and said she was not strong enough to go out to work, but if she could have a room she knew how to wash and iron nicely, and she was sure she could get a living. 'Think of it, a frail little woman of sixty-five starting out to do work like that!'"

"Well, Miss Cameron, my blood just boiled. I told her they had obtained money under false pretenses and could be compelled to take care of her, but, of course, the mother love came to the front, and she said, 'They are my children. I cannot do that.'"

"Miss Cameron, won't you please take this case up in your column and give a strong warning to mothers and fathers to think about what they absolutely need to carry them through, and at the same time won't you please deal out a good big slice of what you think such children deserve?"

Now, as for that first request - well, it doesn't seem to me that these true stories need any additional word of mine to make them the strongest of strong warnings.

And as for the second, well, if I could dip my pen in vitriol and write upon their hearts, I might deal out to those children a fraction of what they deserve.

Otherwise, I fear I am quite incapable.

The Katherine Kip Editorial

ENVY SHOWS WEAKNESS.

Don't spoil your life by envying the success or the accomplishments of others. Remember that whatever others have attained is quite possible to you if you are willing to put your thought and your attention into the business of winning.

Someone has made this succinct and true statement:

"Envy is not only a very great weakness, but it is a great ignorance as well. No man envies what he can surpass or equal." The moment you commence to envy that moment you begin to acknowledge your own inability to accomplish what you are capable of.

What someone else has accomplished you can equal by hard work, which is, after all, probably the secret of their good fortune. Boiled down to work intelligently. A combination of hard work and good luck. Most persons who succeed have been fortunate in having whatever native talent they possessed supplemented by the ability to work hard and because they have early learned this secret they have also learned to work hard.

Small minds envy. Large minds know no such weakness. The person of large mind can afford to be unambitious and generous in his attitude towards all the world. It knows its own limitations and appreciates the responsibility of effort, but it also understands more. It understands that there can be no success, no flashing of genius without hard, persistent work carried through a series of years. It knows that no matter what the natural talent may be it is useless unless it is energized.

It is the habit of envious minds to find a peculiar pleasure in trying to tear down the well earned fame of those who have prospered through their own efforts. It is the habit of the small minds to misunderstand the motives of those who have climbed a little higher, but it must be said that this is occasioned more through ignorance than any desire to injure.

It is difficult for a mind devoid of high purposes to understand the motives of those of high ideals. It is impossible for the man who has never known a generous impulse to understand generosity in others. It is hard for those who have never felt the spur of ambition to understand the aspiration that makes men or women desire to rise above the common level.

And yet there are people of envious mind whose opportunities in life have been of a character that should have given them wisdom sufficient to make them above pettiness. Position in life came to them with birth. Means for accomplishment as soon as they were old hands almost to grasp it. But with all these things they were denied that intangible something that spur on to accomplishment, and so they have sat down to mourn and to envy others, who with real handiwork to them, have gone forward to the goal of success.

Now envy is a confession of weakness, and man or woman is never so strong as when they decide definitely to do with it.

To Women Readers

But two days more remain for the menu contest. Daily as many recipes as possible are being published so that all contestants can have a varied list to select from as possible.

From the numerous inquiries that have been made to enter their menus, I have been told by the readers of the Gazette in all parts of southern Wisconsin and even from adjacent states where the paper goes, for the Scrap Book, shows the interest the contest has aroused.

Competent judges have been selected to pass upon the merits of the different menus presented and the awards will be made public as soon as possible, and the prizes given to the winners. All menus to be considered by the judges must be in the Gazette office by Saturday May 6th. The extra week is given so that the recipes that are printed Saturday and Monday can be utilized if desired.

These menus must be written on one side of the paper only and it is suggested that one day's arrangement of meals be written on the same sheet. The dates that the recipes used were printed in the Gazette must also appear on this same sheet so as to simplify the work of the judges.

As stated before, ten additional prizes have been added to the list of the four major prizes and they will be awarded to the ten next best menus for the week. This makes fourteen prizes in all to be awarded as follows:

First prize—Glorious Profound Cook-stove.

Second prize—\$5.00 in gold.

Third prize—\$3.00.

Fourth prize—\$2.00.

For the next ten best lists a "Silverware" to each.

The contest closes on Monday next, April 30, and the completed lists of menus must be received in the Gazette office by Saturday morning, May 6th.

In making up your lists be sure and state on what days the recipes used were published in the Gazette. Keep in mind that the idea of the contest is to secure a series of menus that can be used by a family for every day use, and that the feature of utilization of odds and ends to keep down expenses will count in deciding the winners.

DAILY DIET AND HEALTH HINTS

DIETARY FOR INVALIDS.

Uncooked apples, grapes, oranges, pineapple, make a good morning meal for an invalid or infirm person; a whipped egg with well toasted dry bread for dinner, and rice alone in increasing quantity, as strength returns (no milk, if the digestion is very weak), and buttermilk only or grape juice only in the evening, for which may be substituted prunes (alone) as strength increases, thoroughly washed. This dietary calls for little vitality, yet contains every element of nutrition, and can be relied upon to sustain indefinitely anyone not doing much mental or physical work.

The KATHERINE KIP GABINET

SOME souls there are like the catfish, who are surrounded by a prickling mass of awnless, themselves a marvel of awnlessness.

More About Fish.

Fish should be perfectly fresh, although it may be kept well if frozen and cooked as soon as it is thawed.

Another thing to be remembered in serving fish is to have it thoroughly cooked, or it will be indigestible. Very serious poisoning has resulted from fish that has begun to decompose.

All varieties of fish need an accompaniment of starchy food to make a well balanced meal.

As the juices of fish have a tendency to alkalinity, the use of acids, lemon and vinegar, is desirable to neutralize the food.

The flesh of fresh fish is firm and hard and will rise when pressed with the fingers.

See that the eyes are bright and stand out well in the head and the gills bright. When fish lose their firmness they are not considered good fish.

Frozen fish should be thawed in cold water. Salt fish should be soaked in cold water, to draw out the salt.

When scaling fish that are difficult, dip them quickly into boiling water an instant and the scales will come off much better.

If fish must be kept, wrap it in a cloth wrung out of cold water and well sprinkled with salt. Keep in a cool place, away from butter and milk.

To Bone a Fish.—Clean and strip off the skin, lay on a board, begin at the tail, turn a knife under the flesh close to the bone, and scrape away clean from the bone, holding the fish carefully, not to break the flakes.

When the flesh is removed on one side, slip the knife under the bone and remove it. Then pull out all the small bones left. Only fish with large bones should be used for boning.

Fillets of fish are the flesh separated from the bone.

When boning fish, tie up in a piece of white cloth, then it may be served without breaking, if handled carefully.

Fish that are lacking in fat, like cod or bass, should have fat supplied in the cooking or serving.

Nellie Maxwell.

Black Bean Soup.

Soak over night one pint of black beans, drain and cook in two quarts of water which should be cold when poured over the beans; cook slowly for five hours, adding a little water from time to time as it cooks away to keep the whole amount as it was at the beginning. Rub through a strainer, add one-half tablespoon of salt, a pinch of cayenne and saltspoon each of pepper and mustard. Heat and thicken with one rounding tablespoon each of butter and flour, rubbed together.

When the soup has boiled five minutes, after thickening pour it over half a lemon sliced very thin and one sliced hard boiled egg.

Tomato Jelly.

To make the tomato jelly soak a quarter cupful of gelatin in the same amount of cold water. When softened put into a sauce pan with a cupful of strained tomato, a quarter cupful of cold water, a teaspoonful of salt, the same amount of onion juice, a tablespoonful of tarragon vinegar and a quarter teaspoonful of white pepper. Stir over the fire until the gelatin is dissolved, but not a moment longer, turn at once into egg cups or small molds and set away to harden. Serve on lettuce leaves with mayonnaise.

Cape Cod Stew.

Fry five slices of salt pork that have been cut in strips, until crisp. Cut two pounds of beef into large cubes and brown in the fat after having taken out the scraps. Put all into a kettle and cover with boiling water. Cook gently two hours then add parsnips scraped and cut in halves, turnips cut in round slices, and when nearly done white and sweet potatoes whole or cut in halves if large. When the potatoes are almost done by dumplings round the top, but not so that the water will touch them. Cover closely and cook fifteen minutes without lifting the cover.

Daked Eggs.

Eggs may be baked in several ways, but one of the easiest methods is to use an earthen plate for the baking dish. Cover the dish thickly with butter and break into it very carefully, so as not to break the yolks, six eggs. Sprinkle them with salt and pepper and put into moderate oven. When the edges of the whites of the eggs are hard, remove from the oven and serve on the dish in which they are cooked.

Hammy Fritters.

Break up two cups cold cooked hammy with a fork. Add one scant cup of milk, a pinch of salt, one beaten egg and one half cup of flour in which one level teaspoonful of baking powder is sifted. Drop by spoonfuls into hot hard and fry until a delicate brown.

Raisin Biscuit.

These are excellent for home lunch, or for the children's school or picnic lunch. Sift together one quart of flour a half teaspoonful of salt and two heaping teaspoonfuls of baking powder. Work into the sifted flour a cup-

ful of shortening, then add a cupful each of seedless raisins and milk, mix well and roll out on the molding board. Cut in small round biscuits and bake in a quick oven.

New Contest for Women Readers

Women readers of the Gazette have shown so much interest in the last two contests for them, that a new one is announced today. While it does not refer directly to the House itself it is an essential part of the home.

There is scarcely a housewife in the country who does not plan each spring for a bit of garden, either for posies or vegetables. A little parsley, some lettuce, a few onion sets, radishes, perhaps even cucumbers and tomatoes, and the modest ambitions have other grounds growing in their little plot.

Now is the time to make these gardens. The spring has been so delayed that it really would have made no difference if the seeds have been placed in the soil or not. Within the next ten days it is safe to say that all the gardens, large and small in the city will be finished and the fun of watching the tiny sprouts peep through the soil be eagerly watched for.

Keeping this in mind the Gazette would like an article on the garden. The best methods to be pursued in making it? What to plant? What your own personal experience has been in the matter in past years? How to care for it? What results you can obtain and how to bring them about to help others to avoid your mistakes or profit by your experience.

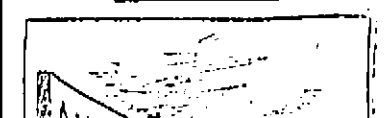

These articles must be written on one side of the paper only, in a clear legible hand, and reach the Gazette office by Saturday, May 6th. They should be confined to at least two hundred words and if mailed the envelope must have a two cent stamp on it to insure safe delivery.

Competent judges will pass upon the merits of these articles and the following prizes will be awarded for the three best articles:

First prize—One dollar.

Second prize—"Silverware", silver cleaner.

Third prize—Fifty cents.

PRESIDENT NUMBER FIVE.

April 28.—James Monroe, fifth president of the United States was born in Westmoreland county, Virginia, April 28, 1758. Coming from necessity that had served in the army of Charles I. it was natural for Monroe to join the revolutionary army at the age of 18 and take part in a number of battles. After the war he filled a number of small elective offices. In 1782 he was elected to congress where he always fought encroachment by the federal government. He was afterward sent to France as minister, by Washington, only to be recalled for having too decided French sympathies. He was elected governor of Virginia in 1779 and in 1803 was sent by Jefferson to purchase Louisiana from the French for \$15,000,000. On the election of Madison, Monroe was made secretary of state. In 1816 he was elected president of the United States and as such promulgated what has become known as the "Monroe Doctrine", in which he declared the American policy of "neither entangling ourselves in the affairs of Europe, nor suffering the powers of the old world to interfere with the affairs of the new," and "that any attempt to extend their system to any portion of this hemisphere would be dangerous to our peace and safety." Monroe died July 4, 1831.

A REBELLION

I've locked the door upon the all, they're waiting on the walk to teach me how to breathe, the one who teaches talk, The one who guarantees to give a graceful, easy gait.

And all the other spectacles; I'll leave them there to wait.

I'm tired, tired, tired—and their books are on the shelf, And for to-day I'm going to be my simple, awkward self!

I shall not draw my breath just as I hold it while I count.

I do not care how much I breathe, nor measure the amount—I'm simply going to take my breath so that it gets inside.

The yearning of my muscles for a rest won't be denied.

O, what relief to draw a breath and not think of the rules!

For breathing from the diaphragm, as ordered by the schools!

To-day I shall not talk just as—I shall not place my tongue.

So that I feel a tremor in the little nasal bones!

I'll vocalize to suit myself; I'll turn my larynx loose.

And let it shuffle up and down and simply raise the degree.

The elocution teacher isn't here upon the watch.

And I intend to have a spree—a lingual debauch!

To-day I will not hold my chin at just the right degree.

Nor keep my belt-line gathered in and hidden from my knee;

I'll walk just any way I please, flat-footed, slumped, or

On any way I feel inclined that isn't a mode.

I'll clear my feet, I'll shuffle them, I'll step on toes or heels—

And would that I had words to tell the thrill of joy I feel!

I'm independent for a day! I will not hold the thought.

I will not worry my poor brain by thinking as I ought.

I will not plumb my consciousness, nor turn my eye on—

Abs! I looked outside and saw my teacher's eyes all had gone!

I'm tired, tired, tired—and their books are on the shelf,

And for to-day at least I'll be my simple, awkward self!

WILLIAM D. NISBET

IN ITALIAN COSTUME.

Miss Alya Meyer, daughter of Secretary Meyer of the United States navy.

Washington, D. C.—This is the latest picture of Miss Alya Meyer, daughter of the secretary of the navy; further, it is the one for which she has renounced all others.

She is shown dressed in Italian costume. During the long stay of the family in Rome the two young girls and Mrs. Meyer grew very much attached to the country and its customs.

and this will doubtless explain the liking of Miss Meyer for her costume.

London's Army of Sick and Maimed.

About 10,000 beds are required to hold London's sick and maimed.

"Schochets."

A large business is done by the men who are licensed to kill poultry according to the Moslem law. They are known as "schochets" and are employed by the poultry dealers of the East side. Their pay has not been satisfactory of late, and at a recent meeting of their organization a strike was decided upon, which was averted by the recently founded "community."

Lady Baltimore Cake

The Most Popular Cake This Season

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This is considered by many cooking authorities the finest cake that can be made, though in reality it is not at all difficult.

One cup butter; 2 cups granulated sugar; 1 cup milk; 1 teaspoonful rose water; 3 1/2 cups flour; 3 level teaspoonfuls K. C. baking powder; whites of 6 eggs, beaten dry.

Cream the butter and beat in the sugar gradually. Sift together, three times, the flour and baking powder, and add to the butter and sugar, alternating with the milk and rose water. Lastly, add the egg whites, beating in three-day cake pans. Beat the layers together with the following frosting.

NOTE.—The cake is a large one and sells at Women's Exchanges for \$1.50.

Frosting for Lady Baltimore Cake

Three cups granulated sugar; 1 cup boiling water; 1/2 cup cream; 1 cup chopped nuts; 1 cup chopped marmalade; 5 eggs cut in thin slices.

Sift the sugar and water until the sugar is dissolved, then let boil without stirring until the syrup from a spoon will spin a long thread; pour upon the whites of the eggs, beaten dry, beating constantly meanwhile. Continue the beating until the frosting is cold; add the fruit and spread upon the cake.

The K. C. Cook's Book contains thirty-five such delicious recipes—iced, nutmeg, cakes and pastries. You can secure a copy free by sending the certificate packed in every 25-cent can of K. C. baking powder to the J. C. Taylor Co., Chicago. Bland cans do not contain Cook's Book certificates.
